### What does GL Voice Solutions do?

- **Telecommunications Bill Auditing**

Auditing Telecomm bills will allow us reduce your monthly communications cost by finding errors and get refunds or credits that are due your company. Reduce monthly carrier costs with out switching carriers. Imagine knowing and understanding what you are paying for. Your business can usually save you 15%-55% or more !

- **Inventories**

Can help reduce over head communications cost's by reducing the unknown. What could be unknown? The telecommunications equipment ,carrier services, hidden charges and services that were to be dropped or not used and never were from the bill. An inventory report will correct this unknown.

- **Project Management**

We can offer many efficient solutions, for moving your **company or managing an additional facility**. Expert advise from a company whose back ground is installation, service and moves for over 17 years. We will select vendors, get quotes on cabling, equipment, services, upgrades, and maintenance contracts.

- **System Procurement**

We provide you with one point of contact for all of telecommunications needs. Using this along with other services we provide you could end up saving.

- **Recommendations**

GL Voice provides professional independent advice and expertise to help you design and assess your cur-

- **How does a GL Voice Solutions work for us?**

A GL Voice Solutions Consultant will learning the details of your business, reviewing telecommunication, carrier services, local, long distance, internet access, and other bills that your company receives. We check them against your present contracts ,service agreements, complete a facility based audit, and inventory of your existing infrastructure.

We make recommendations, reduce costs, improved system functionality, services or vendors selection. In some cases we can use the existing service with enhancements to meet our goal.

- **How does all this help our Business ?**

GL Voice is in the business of simplifying your bill, finding errors, applying for and retrieving refunds. This won't only get money back, but may also reduce monthly costs going forward.

We have the expertise to define business solutions, evaluate your current functionality, recommend communication products, advise on the impact of future trends, develop short- and long-term phased plans, analyze costs vs. benefits, develop vendor selection criteria, and put together RFP's.

At **GL Voice Solutions & Consulting** we believe in bringing value to your organization. Providing the lowest most reliable communication infrastructure available .
